

NAME(S):

Amino Acid Alignment with the N-W Algorithm: align "LSKRSE" with "SKKRE" with a gap penalty -1.

1. Initialize upper-left block to score of 0
2. Initialize top row and leftmost column of both scores and path matrix
3. Fill out matrix left to right, top to bottom using the BLOSUM62 matrix.
4. Starting at bottom-right of path matrix, follow arrows to reach the upper-left. Diagonal arrows are matches. Up and Left arrows are an alignment of an amino acid to a gap.

Scores Matrix:

	-	S	K	K	R	E
-						
L						
S						
K						
R						
S						
E						

Path Matrix:

	-	S	K	K	R	E
-	goal					
L						
S						
K						
R						
S						
E						

Alignment:
