

Your name:

1. Write your name above. Then write the names of your teammate(s) in the box to the right.
2. Please grade each of your team member's contribution to the success of Group Project 1 by assigning each a score out of 10 points. Remember that the project is **not just the program**, but includes equally valuable contributions such as research of good test genes, explaining concepts to your teammates, time management, evaluation of the biological usefulness of your program, organization, etc...
Do not grade yourself.

In the box below, please explain your ratings.

Teammates	Score out of 10
