

NAME:

Final Exam

This exam contains 14 pages (including this cover page).

Expectations:

- You will have 120 minutes to complete this exam.
- Closed note except for 1 notecard of references, submitted with the exam.
- No talking to each other after the exam starts.
- Please try to write legibly and don't try to squeeze text in if it doesn't fit. If you're running out of space, your answers may not be focussed enough.

For each topic:

- Describe this topic in detail, be thorough and focussed.
- Include at least **2** verifiable pieces of information (avoid quality statements, describe *how* things work. It may help to number these statements.
- Discuss this topic in the context of bioinformatics, for example connect it to any of the assignments you've done in this class or other applications of bioinformatics you've learned about.
- State a question you had. The question must be answerable, it must have a *correct* answer.
- Answer your question and include reference(s) you used to find the answer. References must be specific enough that I can find them within a minute of searching.

Please sign and date the following honor code statement:

As a student at Union College, I am part of a community that values intellectual effort, curiosity and discovery. I understand that in order to truly claim my educational and academic achievements, I am obligated to act with academic integrity. Therefore, I affirm that I will carry out my academic endeavors with full academic honesty, and I rely on my fellow students to do the same.
